- Live Demo

Who are We?

- OnTime® currently has more than 600,000 users worldwide
- Located in Denmark, Germany, Japan, and Ukraine
- IntraVision has partnerships with both HCL and Microsoft
- OnTime® is sold and supported both directly by IntraVision and business partners around the globe.
- Co-designing our solutions with our key stakeholders - our customers and partners in order to continuously improve OnTime

A man in a white shirt is seen from behind, looking at a chalkboard. The chalkboard is covered with white chalk drawings of question marks and arrows, some pointing upwards and others in various directions. A blue rounded rectangle is overlaid on the left side of the image, containing the text "Why OnTime?".

Why OnTime?

A Calendar that Drives Outcomes

OnTime Group Calendar transforms individual agendas into a synchronised force, aligning thousands of calendars into one harmonious vision.

Featuring online meetings, legend filters, polling, calendar sharing, and vacation planning tools, simplifying the coordination of both internal and external meetings.

Collaboration and diversity are key drivers in achieving successful business outcomes, and that's precisely what OnTime facilitates.

What is OnTime?

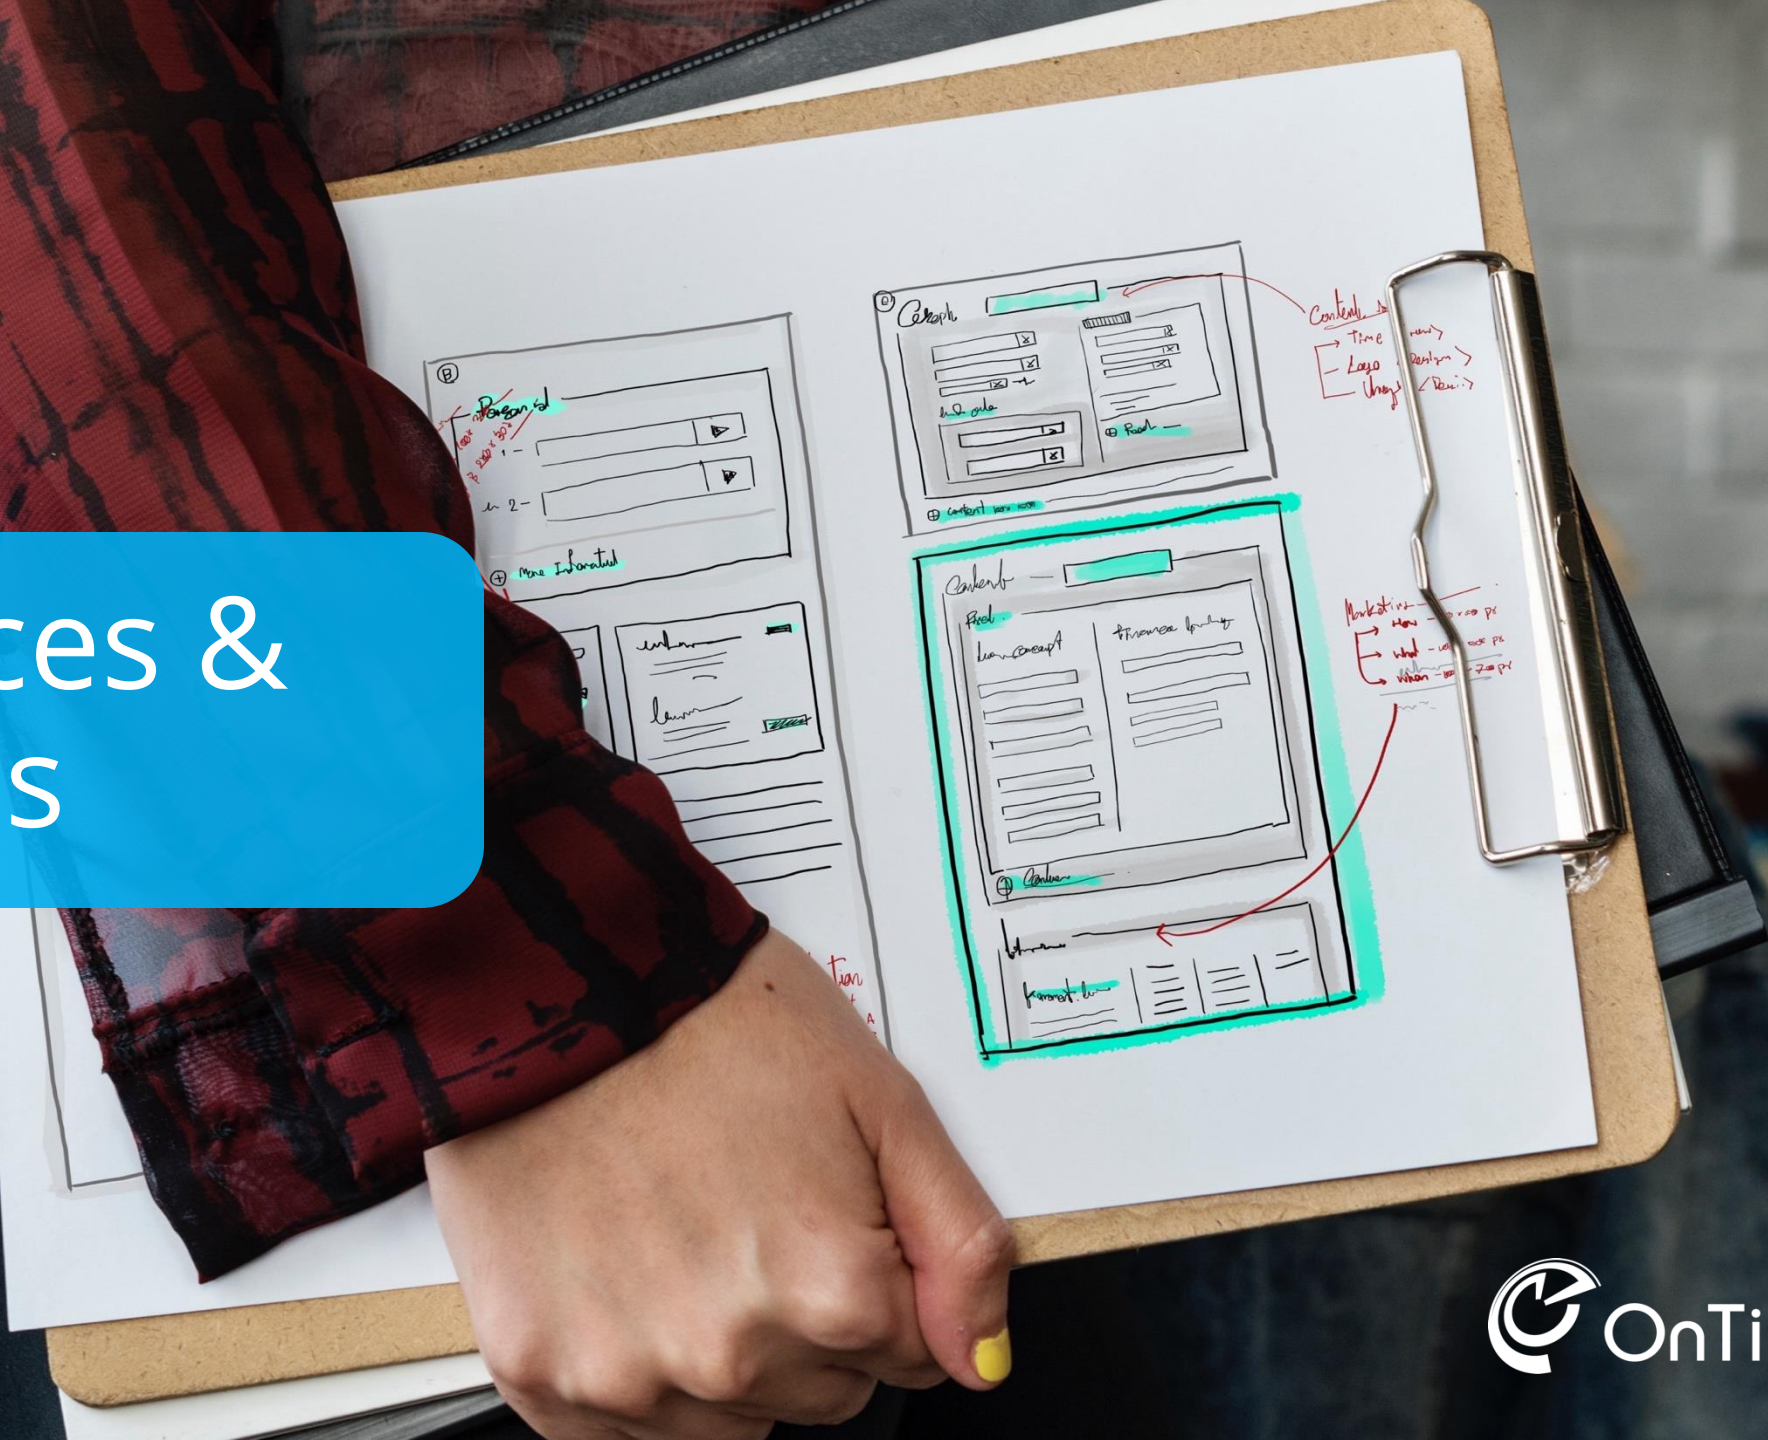

OnTime “Keywords”

Notes & Verse “Best Friend”

- “We” focused contra “Me” focused
- Think BIG not Small - thousands of calendars in one
- Online meeting providers:
Zoom, MS Teams, Webex & Sametime
- Handle your “out of office” plans with ease
- Powerful tool to work On Behalf Of other people
(eg. personal assistants)
- Range of other add-ons – Mobility, Polling, Catering
Management, HCL Connections, Room Display,
Integrations (API)

Interfaces & Add-ons

Group

Desktop Client

- Overview your entire organisations calendars, from one place
- View, Create, modify, search and filter calendar entries
- The central group viewer delivers a high speed, row-based display of multiple users' calendars
- Drag and drop actions
- Customisable via the sidebar, top navigation and action bar

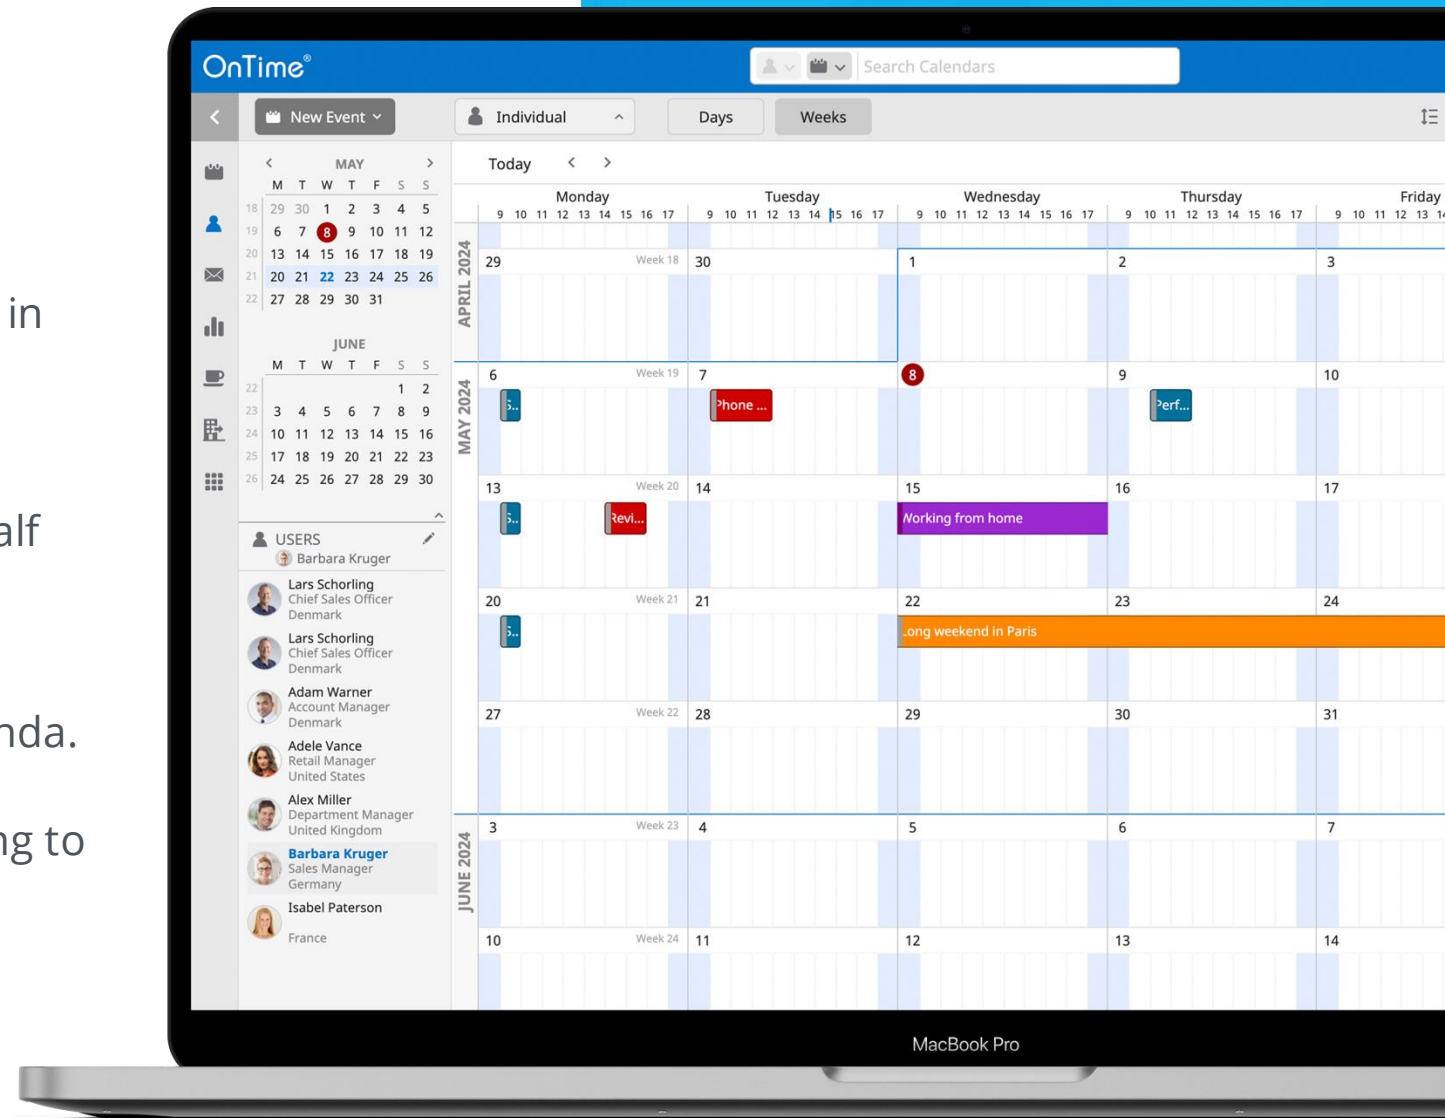

Individual

Desktop Client

- Deep dive into a selected person's calendar
- View a period of a day or even several months.
- Switch between calendars from the Users panel in 1-click
- Respond to another user's calendar invites.
- Allow to create polls and send these out on behalf of other users
- Add Catering to close the circle for the personal assistant to fully support his/her manager's agenda.

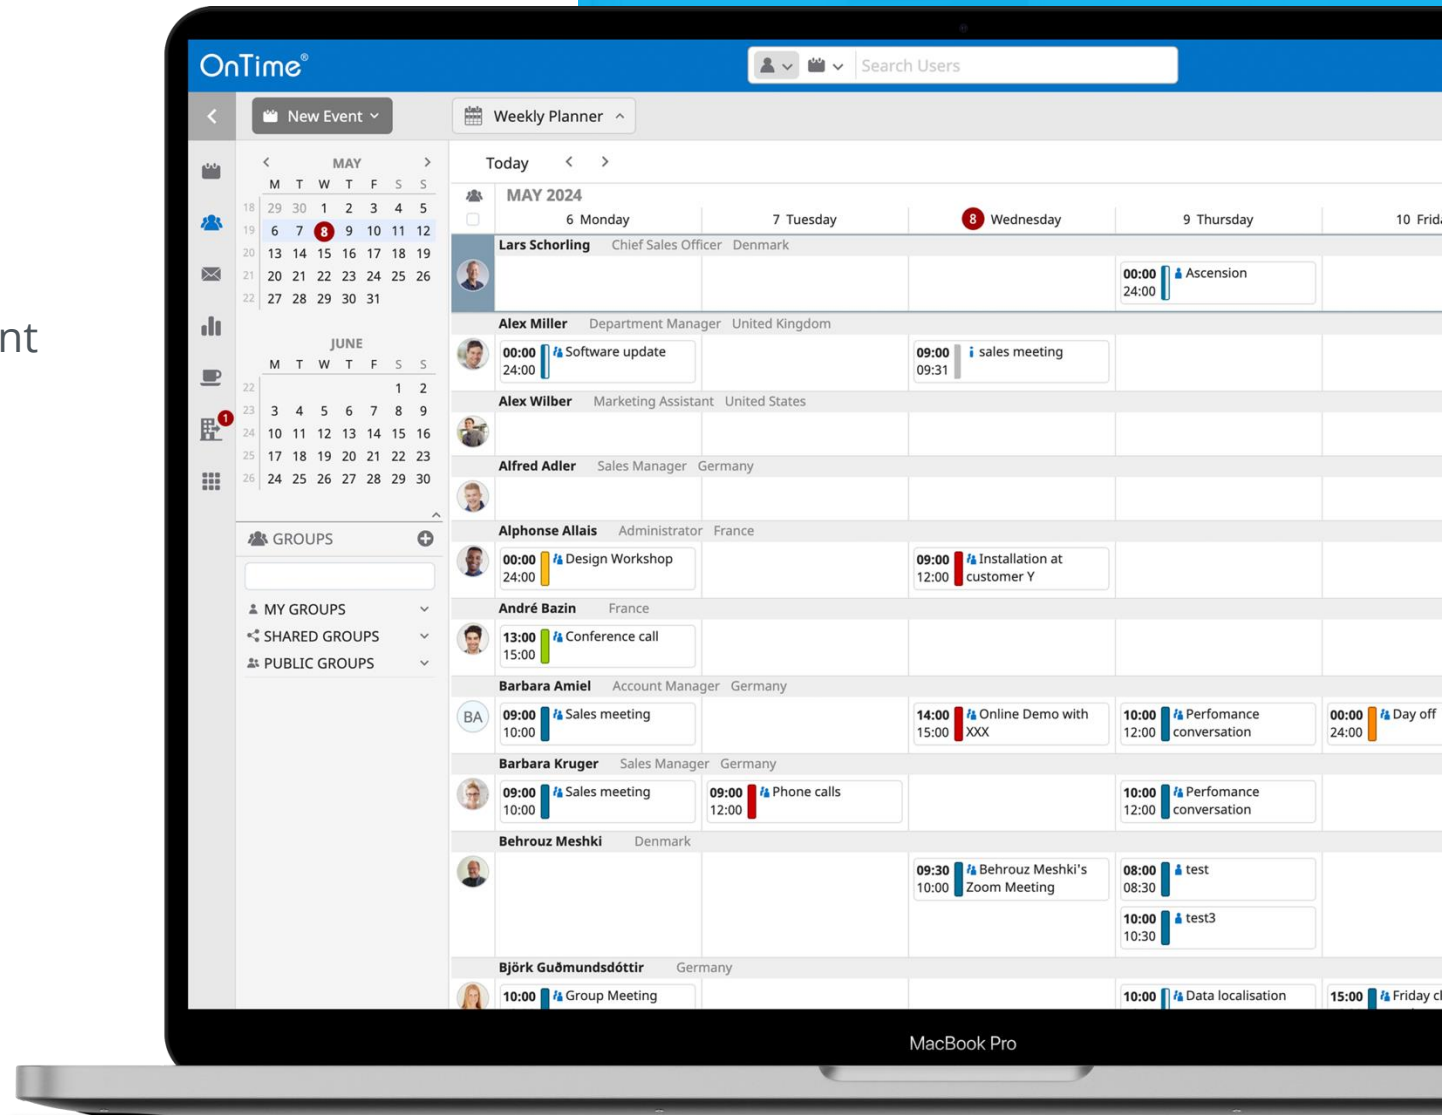

The perfect solution for the personal assistant trying to find time to meet for people with busy agendas.

Weekly Planner

Desktop Client

- Allows you to see your colleagues most important agenda detail from a new perspective
- Drag and drop entries to new times or people

Time Off

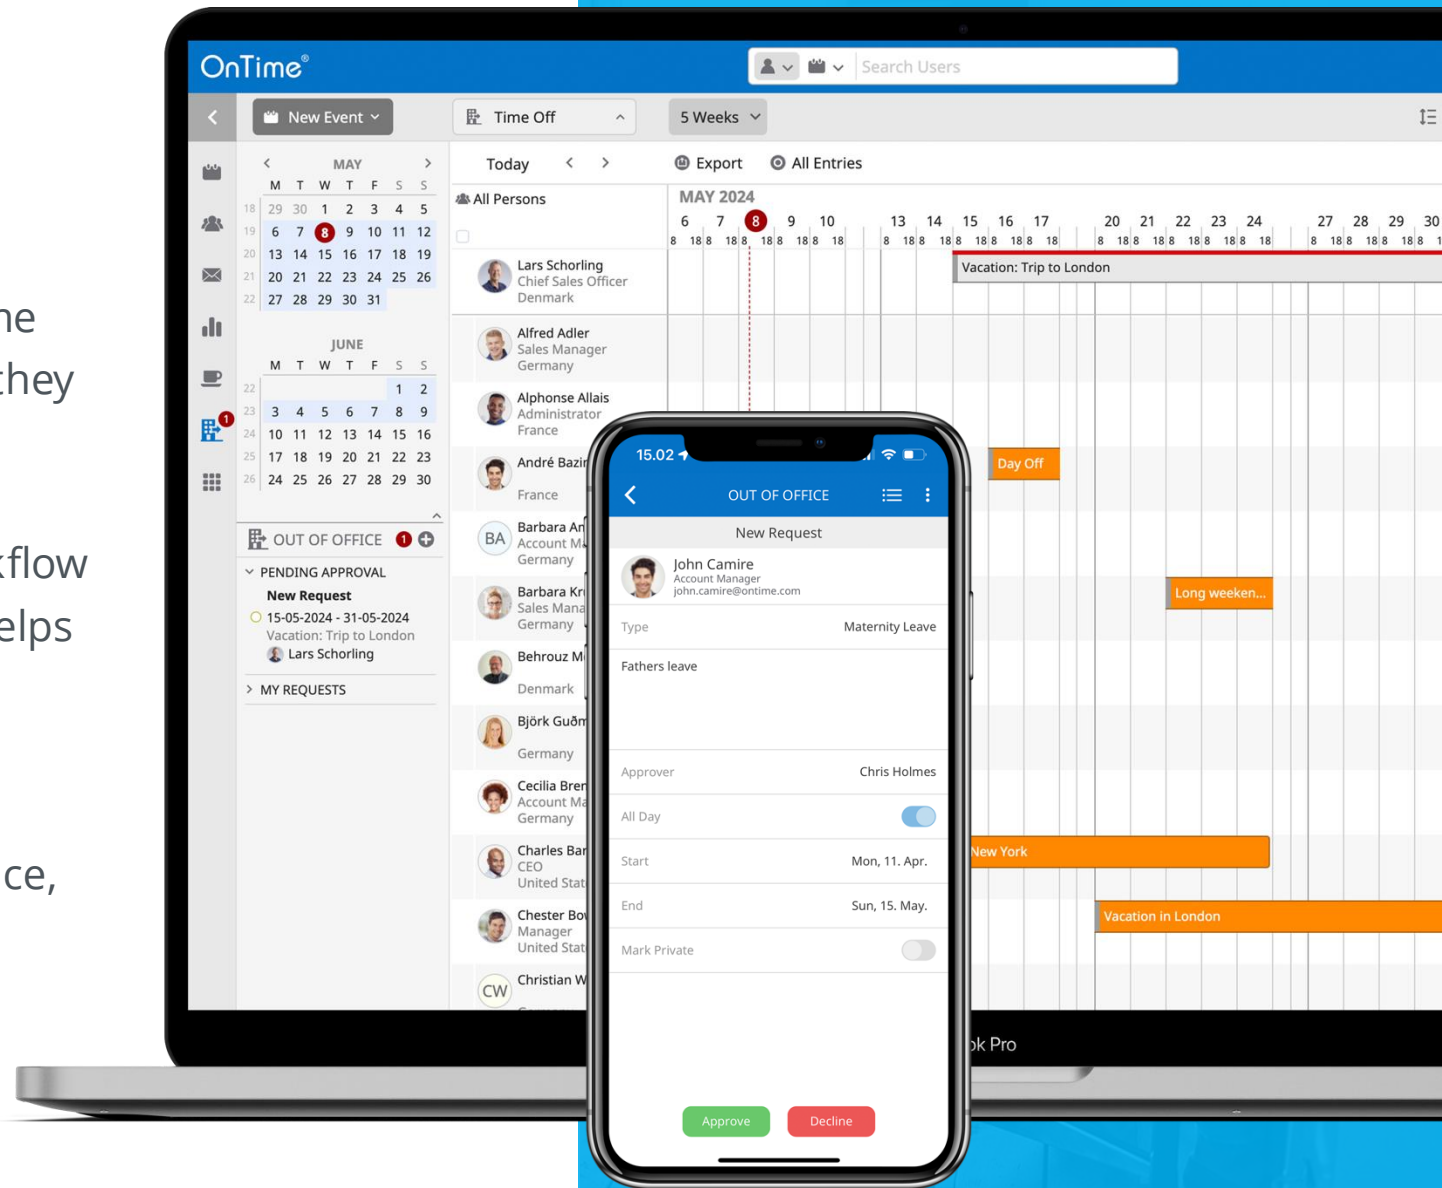

Desktop Client

Request/Approve/Book Your Vacation Plans and Other OoO Requests

With people working in Hybrid modes, it can become confusing to figure out who is where and whether they are available.

In short, the OnTime Out of Office feature is a workflow module with an integrated approval process that helps organisations keep track of the whereabouts of co-workers.

Whether working from home, attending a conference, or away on vacation OnTime help guide you.

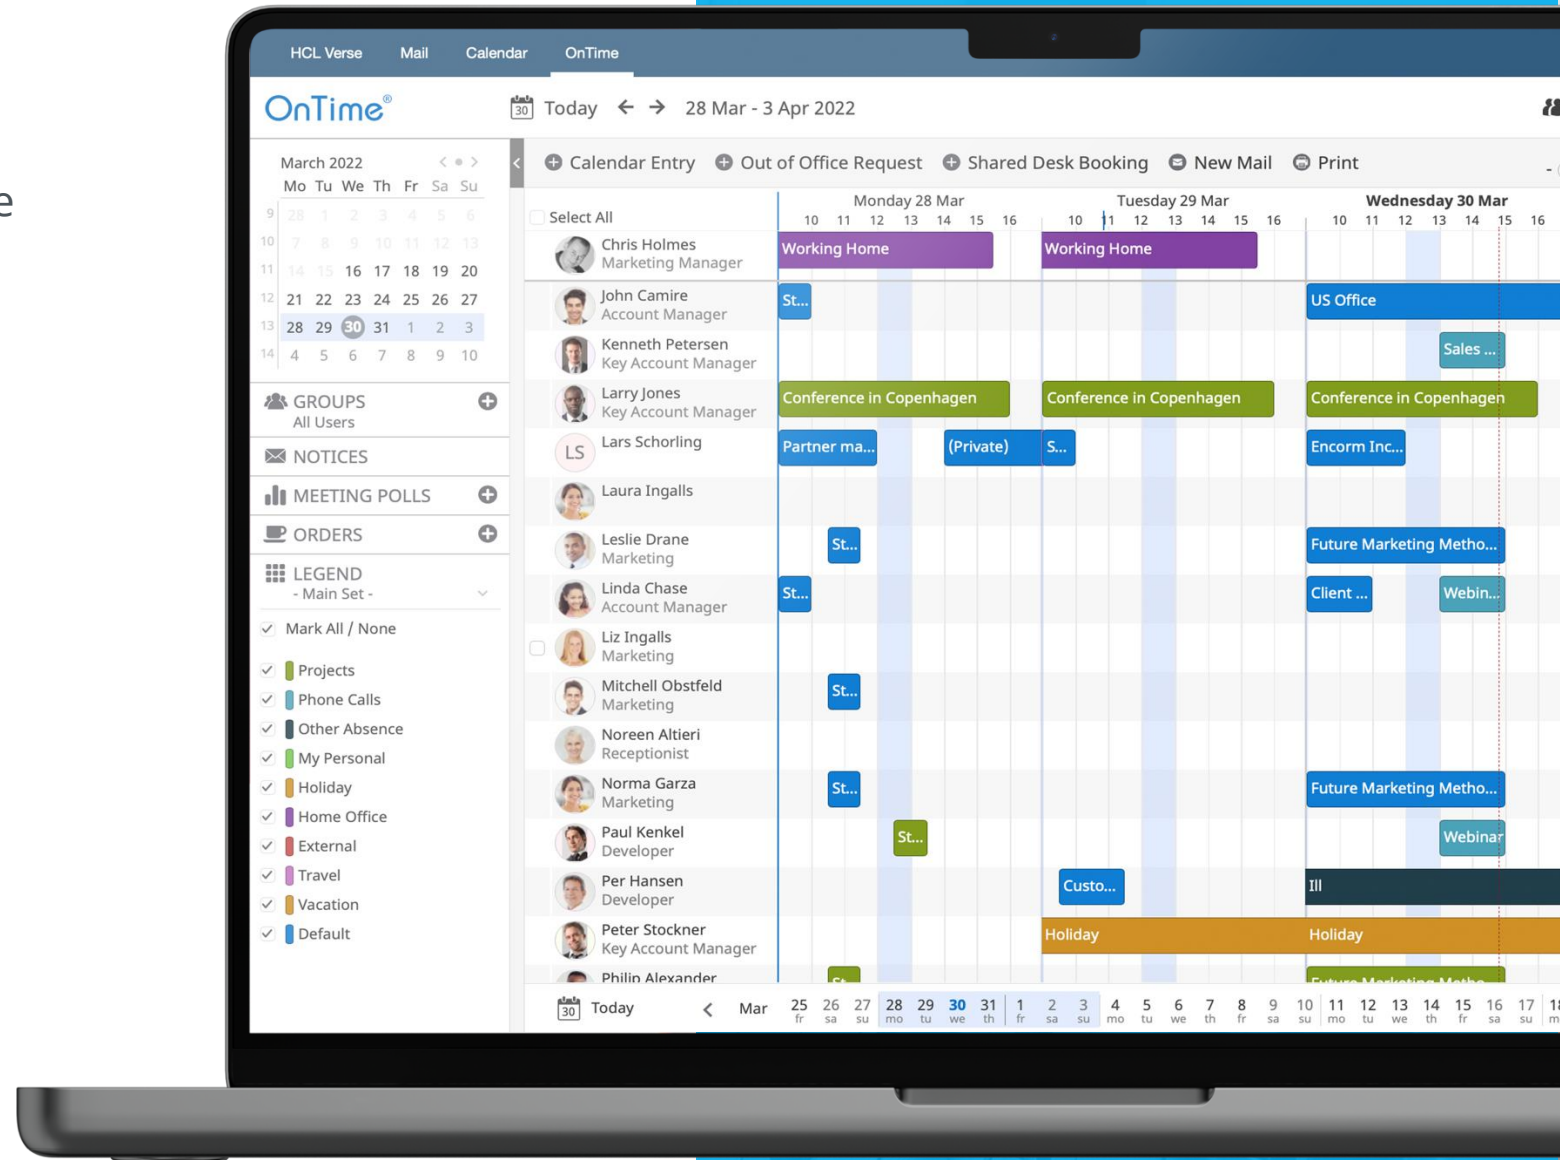

Embedded into Verse

Desktop Client

HCL Verse objectives are to help you prioritize information, people and tasks, anticipating what you need, and when you need it.

Therefore, we have made OnTime available from the Verse interface as well.

The screenshot displays the OnTime Desktop Client interface. The main window shows a meeting configuration form with fields for Meeting, Calendar for (Chris Holmes), Subject (Marketing Moving Forward), Start (Fri 18/08/2023 15:00), End (Fri 18/08/2023 16:00), Repeat, Required (Bonnie Woodley, Douglas Long), Optional, FYI, Rooms, Resources, Location, Online Meeting (There is no online meeting. Add), Category, and Customer ID. A dialog box titled 'OK' is open, showing the following settings:

- Online Meetings:**
 - Microsoft Teams meeting
 - Zoom meeting
 - Webex meeting
 - Sametime personal room <https://my.sametime.ls>
 - Zoom personal room <https://my.zoom.ls>
- Settings:**
 - Meeting ID:** Generated Automatically Personal Meeting ID
 - Security:**
 - Password:
 - Waiting Room
 - Video:** Host On Off Participants On Off
 - Audio:** Mute participants upon entry On Off
 - Other:** Alternative Hosts:

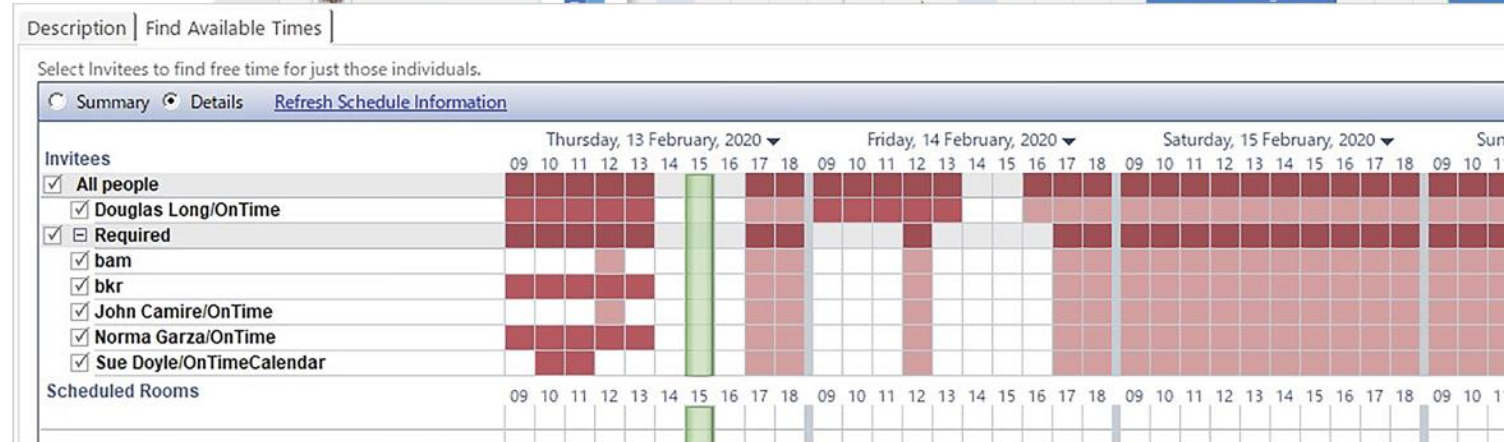

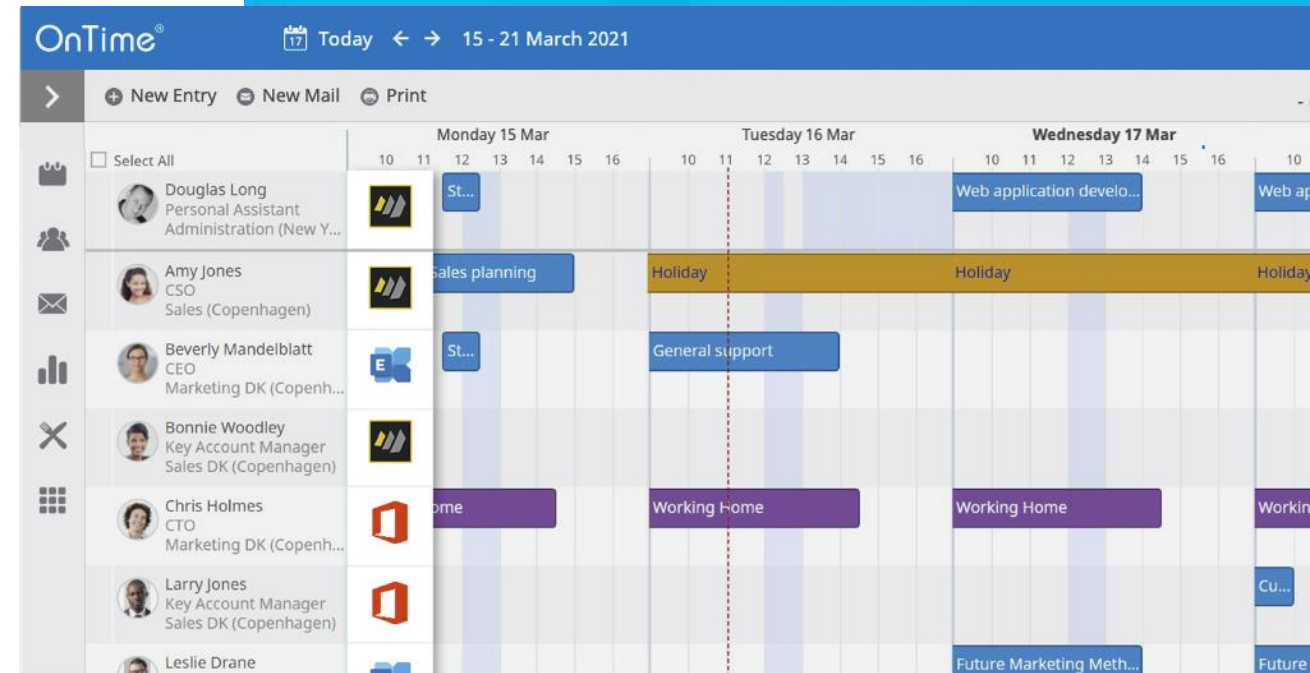

Support Your Online Meetings

Let OnTime help you in creating, maintaining, starting, and joining your favourite online meeting software.

Mixing Domino and Exchange Users

- Free Time search
- Show availability and schedule meetings in the OnTime Desktop
- Invite rooms
- Work "On Behalf Of" – The perfect tool for PA's and service centre personnel

Pollarity

OnTime Freemium

What is OnTime Freemium?

The freemium version is a completely free version of the OnTime Group Calendar for HCL Domino CCB licensed organisations, however with limited features compared to the premium product and add-ons

OnTime Freemium

	Level 1	Level 2
Free of charge		
Total of users, rooms, and resources included in OnTime	25	50
OnTime desktop client with limited features		
Share My Time add-on (limited features)		
Event Hub (limited features)		
Mobile Add on		
2 hours of complimentary support from OnTime/partners included		
License key required (www.ontimesuite.com)		
Included in the Domino 14.x download (Domino CCB entitlement required)		
Terms and conditions applies for each level		

Add-ons

Mobile

A simple user interface which provides the user with a clear overview of tasks and availability of their teams and even the entire enterprise

Find Time (Pollarity)

Significantly reduces the time used to decide upon a common time slot for a meeting by polling the intended participants or sharing your calendar.

Room Display

Optimise your utilisation of your rooms. Visualise and book in no time..

Catering Manager

the organisation's one-stop shop for managing catering within the organisation, in a simple and timesaving way for everyone involved.

HCL Connections

Knowing What We as an Organisation Can Do and When to Do It

Business API

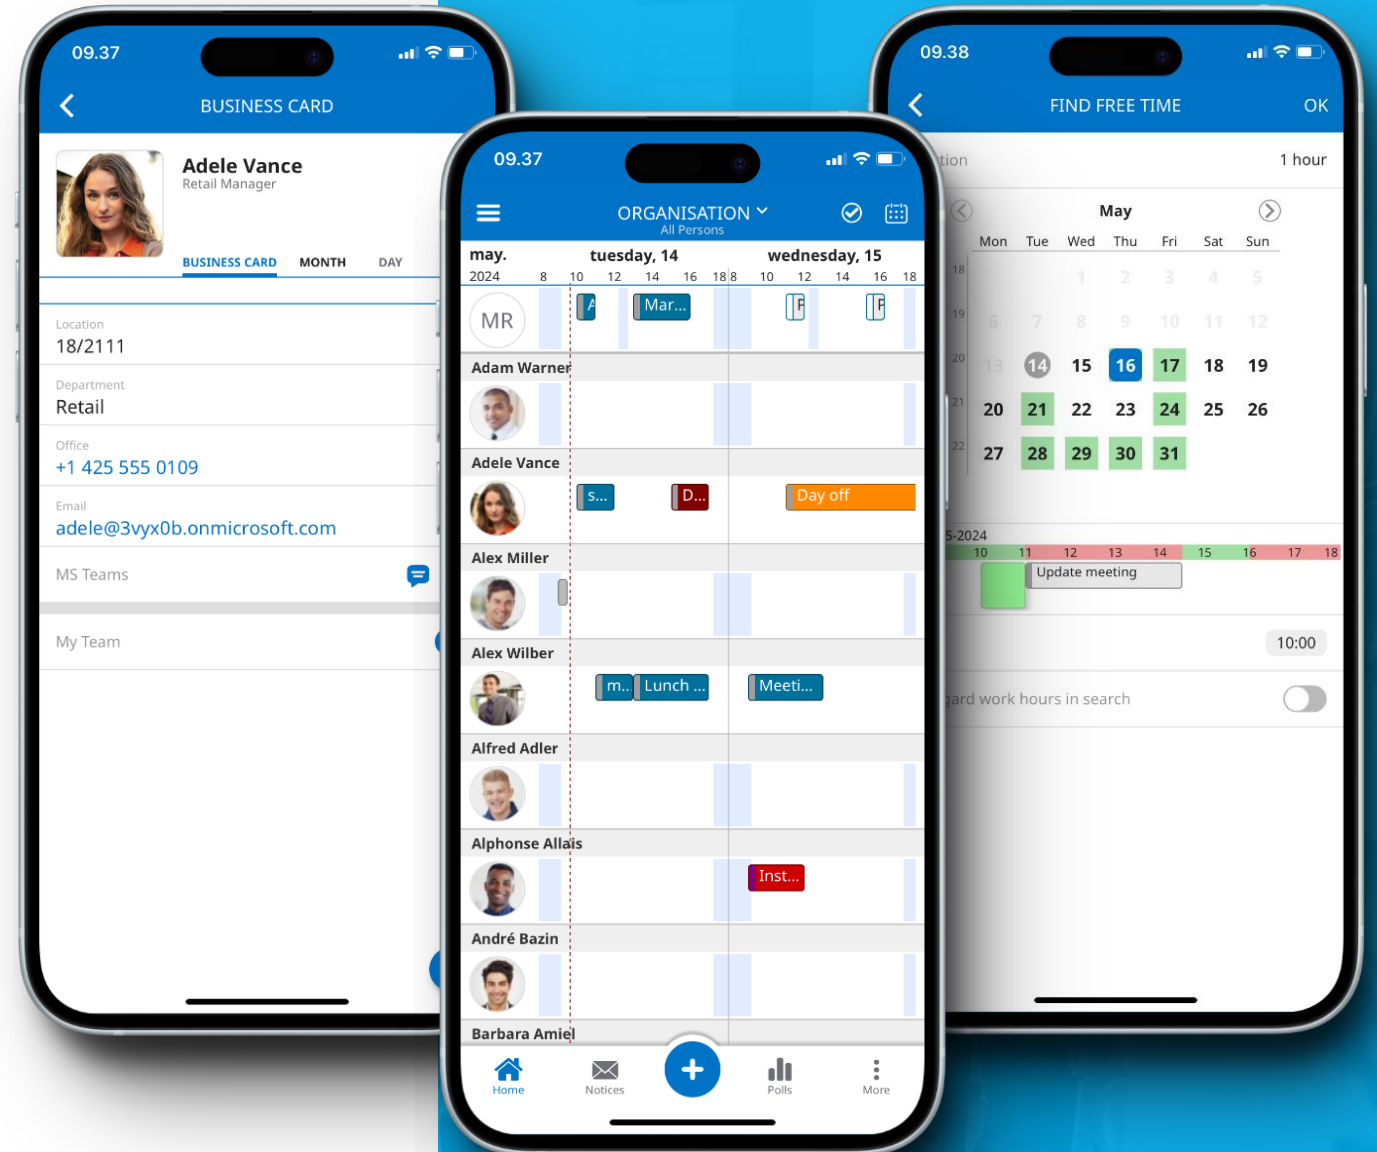

Integrating your Calendar Data with your Business Solutions

Corporate Calendar goes Mobile

Allows you to:

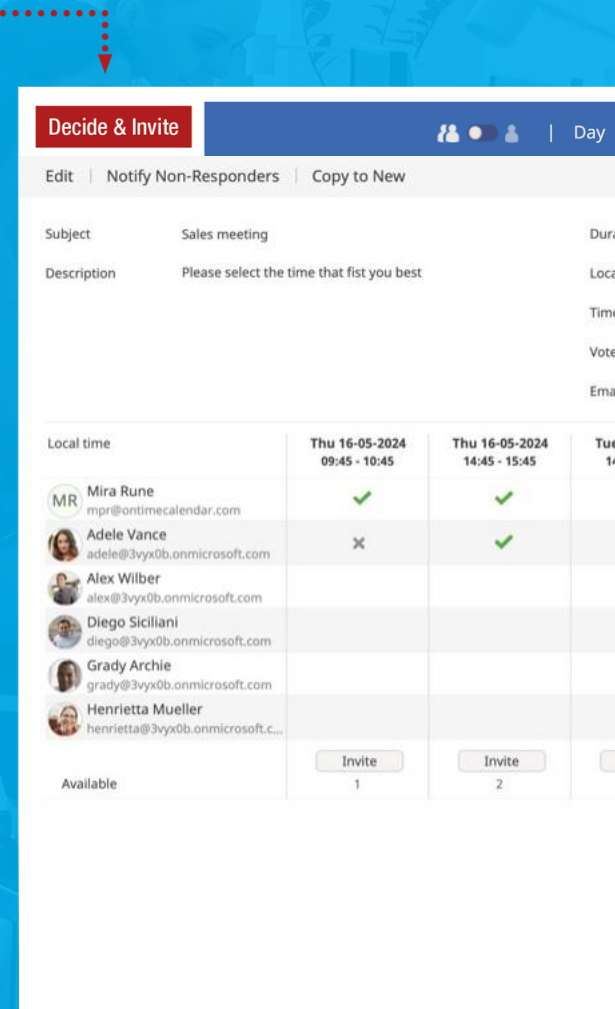

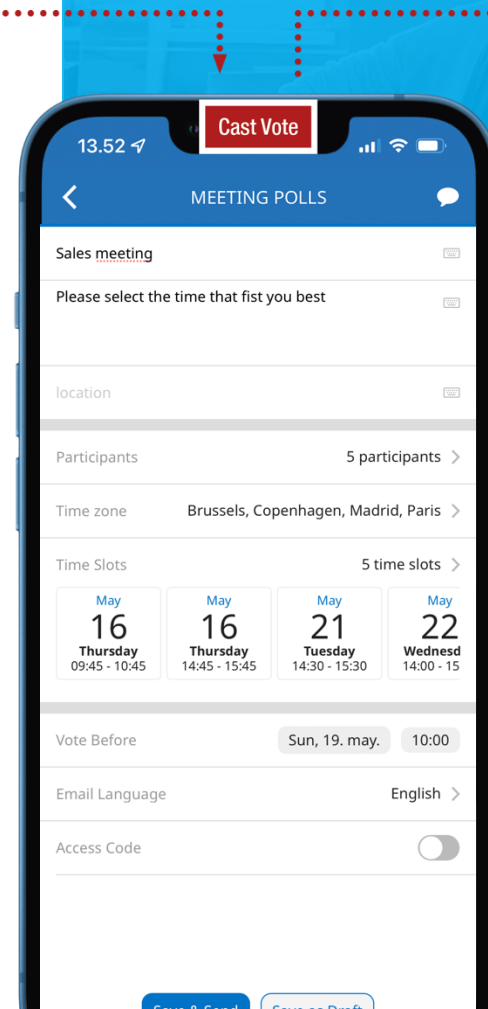

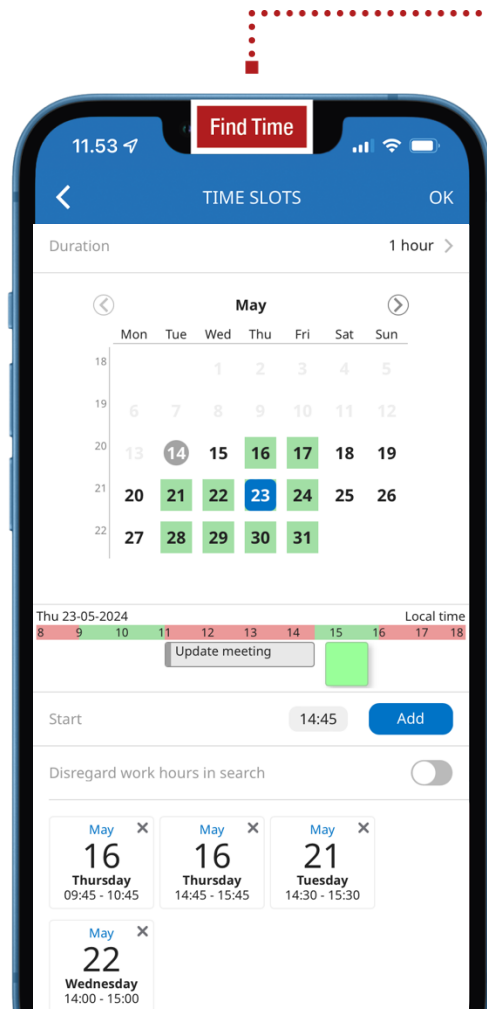

- Find available time for a meeting
- Create and send out invitations
- Create new appointments for co-workers
- Find and book available rooms or shared desks
- Call, e-mail or send a text message based on information in your co-worker's business card
- and much more...

Streamline Scheduling by Polling

Significantly reduce the time used to decide upon a common time slot for a meeting by polling the intended participants. Poll both internally or poll mixed groups which include external participants.

Increase your probability of success for each proposed time slot by enriching the poll with the current calendar information for internal OnTime users.

Effortless Scheduling with Calendar Sharing

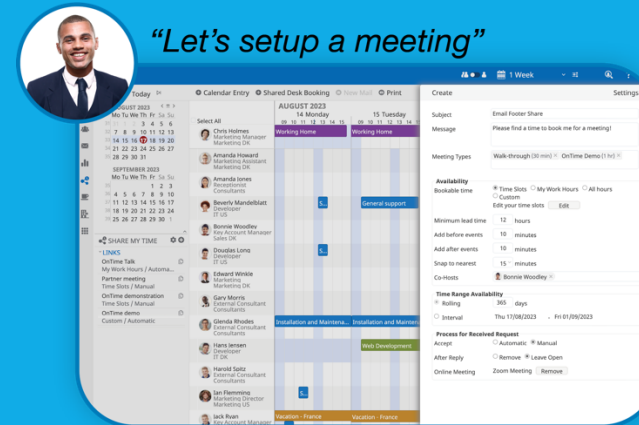

Tired of wasting hours coordinating conflicting meetings and dealing with endless back-and-forth messages?

With Share My Time, You Can give external parties access to your calendar, Allowing Them to seamlessly view and book Meetings without revealing your actual schedule, but only your availability.

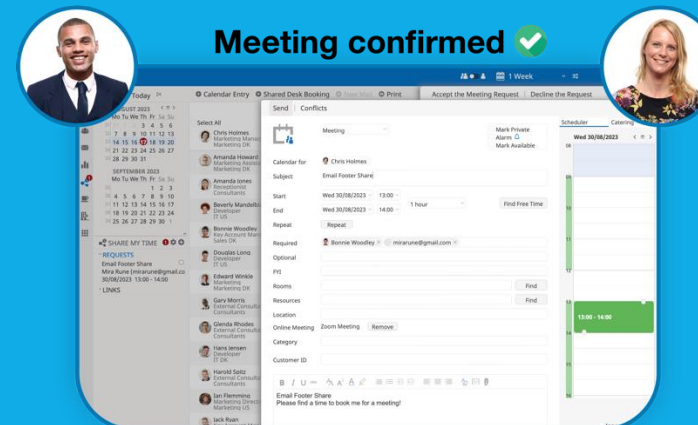

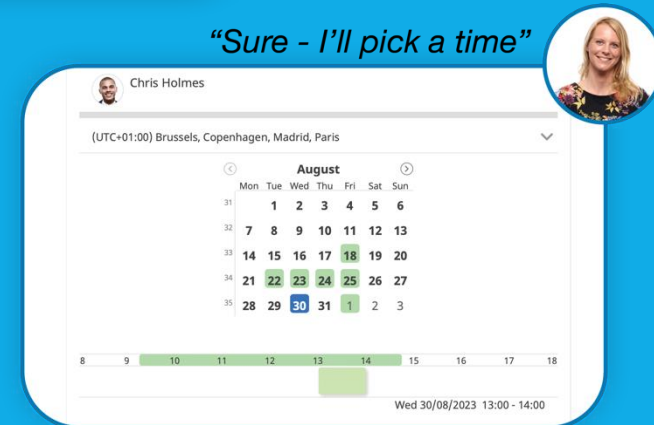

It is available for all registered OnTime users, but with different features depending on your OnTime commitment.

Find Time

"Sure - I'll pick a time"

Increase Utilisation Rates of Your Rooms!

Room	Time	Event	Organizer
Board Room	14:00 - 15:00	Board meeting	Amanda Howard
	15:30 - 19:30	Webinar: Be OnTime	Chris Holmes
C-2150	13:30 - 14:15	(Private)	Chris Holmes

- Catering can be ordered in the same process as the meeting invitation in OnTime.
- Only items that are available at the scheduled time of the meeting are offered to the user.
- Change of schedule for a meeting automatically initiates the required changes to the catering order.

Catering Manager and Staff

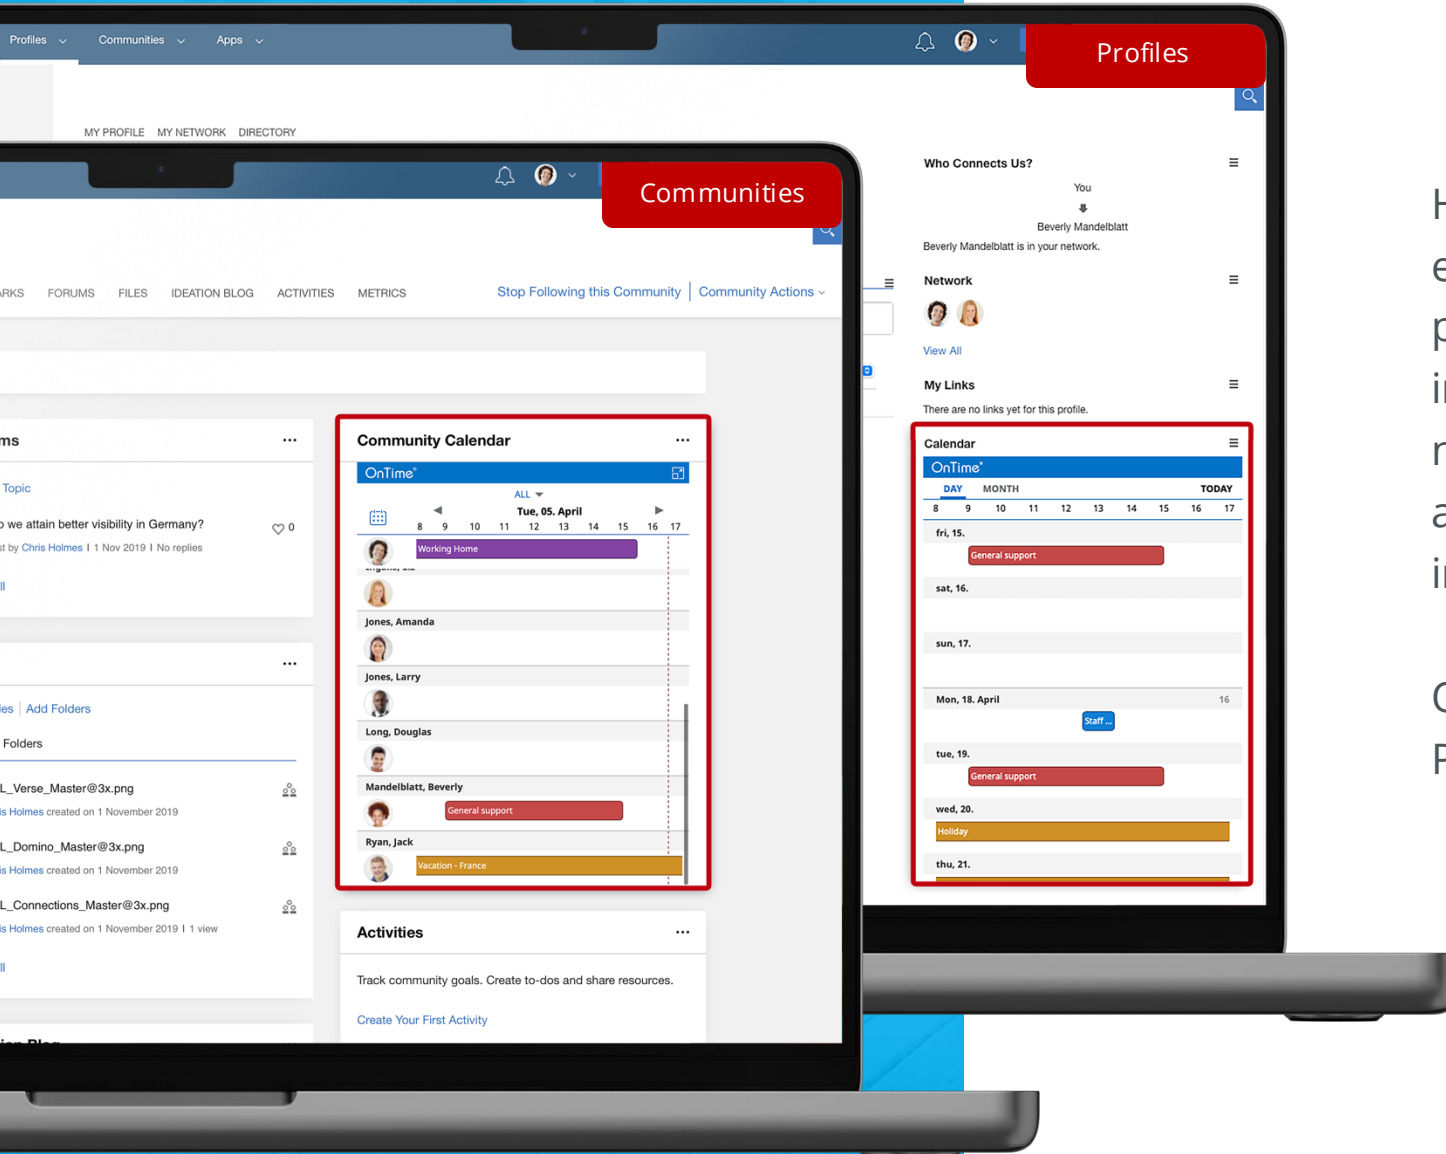

Selected Benefits

- Tracking, accepting, delivering and invoicing of orders.
- Rosters ensures that the correct order is delivered at the right time.
- Changes between ordered and actual consumption can easily be adjusted.
- Completed orders can be exported to an ERP system.
- Working with both your desktop, tablet, and mobile devices

OnTime in Connections

Becoming a True Social Group Calendar

HCL Connections allow for a group calendar experience that was never possible before. The profiling of individuals and their relationships, including who the user is following, and which networks they belong to provides users with the ability to search and filter the scheduling information in entirely new ways.

OnTime integrates into both HCL Connections Profiles and Communities.

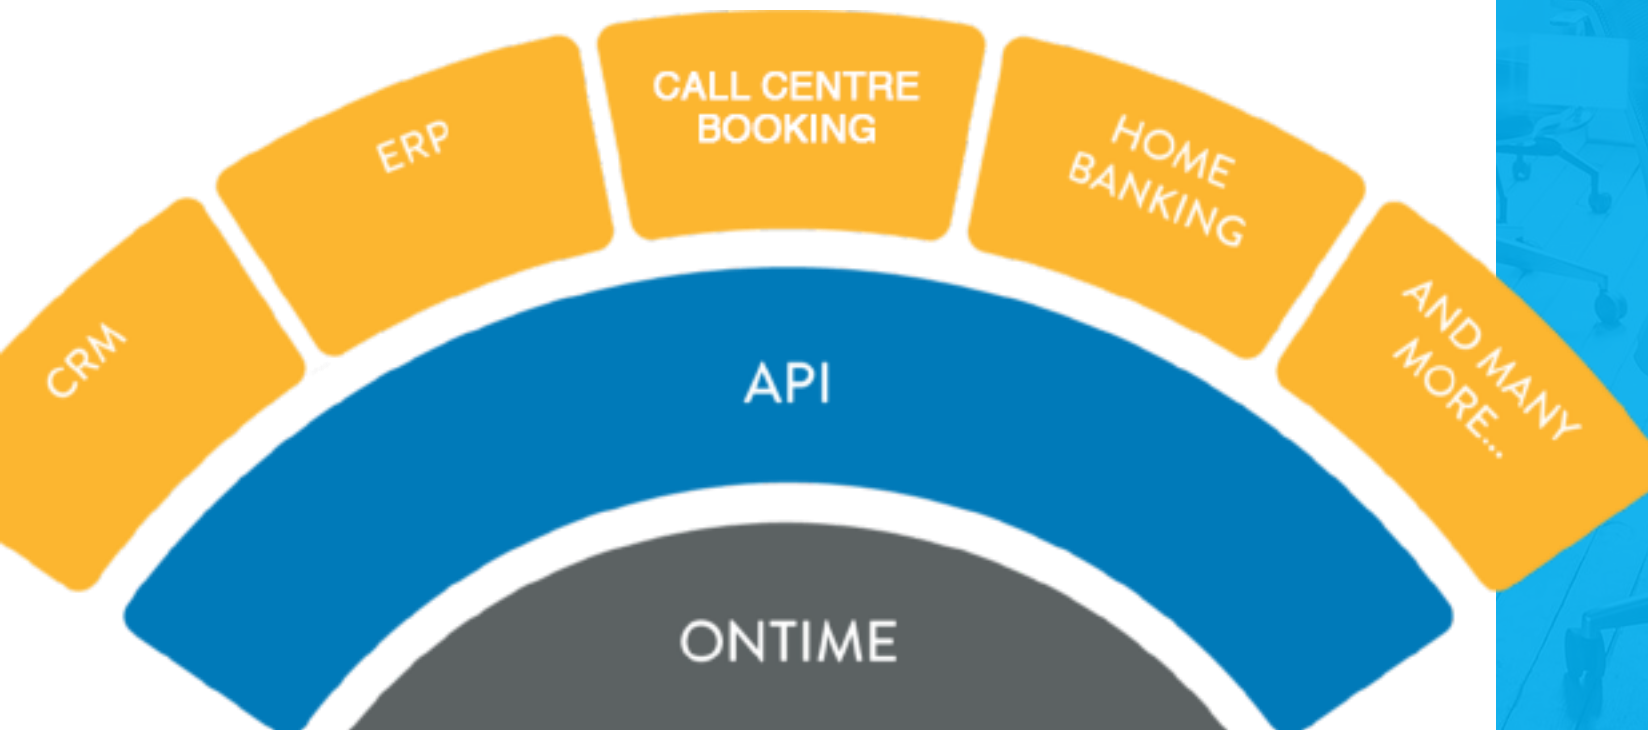

Integration using the OnTime API

The Power of Integration

With the OnTime REST API, you can easily create real-time CRUD integration of your corporate calendar data with your other business applications.

No more updating of multiple systems, no more issues with keeping scheduling data in sync.

Examples from our customers:

- **SIEBEL CRM**
- **SALESFORCE CRM**
- **HOMEBANKING**
- **SAP PTO SYSTEM (Paid Time Off)**
